EDUCATION

Bachelor's Of Engineering LD College Of Engineering

08/2014 - 06/2018

CGPA - 7.60

Courses

- Computer Engineering

IBM Data Science Specialization IBM, Coursera Specialization, 2020

Courses

- In this Professional Certificate, learners get hands-on skills in Data Science and ML. Learners started with basics and get to know about Methodology, data science tools, use Python and SQL, for Data Visualization and Analysis, and created ML models. In this, they completed labs and assignments on the cloud and Project at the end to apply and demonstrate their knowledge and skills.

SKILLS

Python

Numpy

Pandas

Matplotlib

Supervised Learning Algorithms

Google Cloud

Data Visualization

Web Scraping

Google App Engine

Text Data Analysis

NLP

Data Mining

SQL

Data Preprocessing

Data Structure

PROJECTS

Twitter Trends Analysis

- This project was based on the use of basic python skills, use of Twitter API for the collection of the tweets. And we can fetch the trending keywords on twitter using twitter API.
- Found out the keyword's frequency and the similarity between trends of world, country wise and local trends on twitter.

Housing Price Prediction

- In this project, I used Linear regression and make a model that predicts the housing price of the house on various factors like area, number of bedrooms and many more around 12 more factors.
- Based on the previous data the model, predicted the price of the house using the factor which was used while training the model.

Text Analysis API

- I had built this project using the Flask and some libraries in Python. Which takes some text data or URL. After that, it was to process the text and generate some reports which can be utilized to find some information like word count, emails in the text and much more.

Web Scraper for Amazon Affiliate and Telegram Bot

- For this scraper I have used the Selenium and python for achieving the goal.
- This scraper will scrape all the products from various sources from Amazon Website like Deal of the day, New releases and Bestseller.
- After scraping the data like Price, Name of product, And Affiliate link, Telegram bot will post it into telegram groups and channel automatically.

EXTRA ACTIVITIES

Leader at Healthy Campus (08/2016 - 08/2017)

Worked with commissioner of Narcotics Department of Gujarat to aware students about importance of health in life.

NCC 'A' Certificate

I Completed my NCC 'A' Certification course under "27 GUJ BN NCC JAMNAGAR UNIT" and also Attended CATC Camp of NCC as junior division cadet at Jamnagar.
